

GENERAL INFORMATION

Organizer Christian Dejaco, Bruneck, Italy and Medical University Graz, Austria
Christina Duftner, Medical University Innsbruck, Austria
Wolfgang Schmidt, Immanuel Krankenhaus Berlin-Buch, Germany

PCO pdl - Dr. Eugen Preuß, Andreas-Hofer-Straße 6 EG, Innsbruck, Austria
janine.kuba@eulvic.eu

Venue AC Hotel Innsbruck, Salurner Strasse 15, 6020 Innsbruck, Austria

Visitors The number of participants is limited to 60.

Language English

The course is open to participants from all EULAR countries. Participants from other countries are equally welcome.

“EULVIC” is a targeted program for rheumatologists and other professionals with an interest in large vessel vasculitis (LVV), particularly giant cell arteritis (GCA) and Takayasu arteritis (TA). Total participation will be limited due to venue capacity.

Registration fee	early bird until June 30, 2024	after June 30, 2024
Regular	1090 Euros	1190 Euros

Registration fee includes:

- Participation in the whole scientific program incl. workshops and live demonstrations
- Conference material
- All coffee breaks, lunch and welcome reception
- Accommodation for a maximum of two nights in the conference hotel

Discount

If you also participate in the „**International conference on Large Vessel Vasculitis and PolyMyalgia Rheumatica**“, which will take place at the same location from October 2 to 3, 2024, you will receive a 15% discount on both conferences after the events.

For details please visit <https://www.lvv-pmr.eu>

Accreditation We will claim 17 European CME credits (ECMEC®s) from the European Accreditation Council for Continuing Medical Education (EACCME®), as well as 17 educational points (DFP) from the Austrian Medical Chamber.

EULVIC 2024

6th European Large Vessel Vasculitis Imaging Course

October 3-5, 2024 | Innsbruck, Austria | AC Hotel Innsbruck

Thursday, October 3, 2024

16.00 Welcome Christian Dejaco

Imaging in the diagnosis and monitoring of LVV

16.10 Imaging for the diagnosis of LVV: international recommendations Christian Dejaco

16.40 Imaging for monitoring of disease activity of LVV Luca Seitz

17.10 Imaging for monitoring of damage in LVV Sara Monti

17.35 Secondary large vessel vasculitis in Rheumatoid arthritis and other rheumatic diseases Cristina Ponte

18.00 Acute versus chronic lesions in LVV – current available definitions Stavros Chrysidis

18.20 Histopathologic findings and clinical correlations in large vessel vasculitis Alberto Cavazza

Get Together

Friday, October 4, 2024

Ultrasound in LVV

8.30 How to correctly adjust your ultrasound equipment to perform a vascular ultrasonographic examination Christina Duftner

8.40 Ultrasound of the temporal arteries: Technique, pitfalls and pathological findings Wolfgang Schmidt

8.55 **Live Demonstration:** Ultrasound of temporal arteries Wolfgang Schmidt

9.15 **Workshop:** Ultrasound of temporal arteries other cranial arteries in healthy individuals All faculty

10.30 Coffee break

10.30 **Workshop:** Ultrasound of temporal arteries other cranial arteries in patients with GCA All faculty

11.30 Ultrasound of peripheral large arteries: Techniques, pitfalls and pathological findings Andreas Diamantopoulos

11.45 **Live Demonstration:** Ultrasound of peripheral large arteries Andreas Diamantopoulos

12.00 Lunch break

13.00 **Workshop:** Ultrasound of peripheral large arteries in healthy individuals and patients with LVV (GCA and TA) All faculty

Friday, October 4, 2024 - continued

CT in LVV

15.00 CT for diagnosis and assessment of LVV, differential diagnoses and pitfalls Konstanze Guggenberger

15.30 **Workshop:** Assessment of CT images under the supervision of the tutor Konstanze Guggenberger

16.30 Coffee break

MRI in LVV

16.45 MRI for the assessment of cranial and peripheral arteries as well as the aorta in LVV, differential diagnoses and pitfalls Konstanze Guggenberger

17.30 **Workshop:** Assessment of MRI images under the supervision of the tutor Konstanze Guggenberger

Conference Dinner

Saturday, October 5, 2024

Histopathology in GCA

9.00 Histology of normal arteries and pathological findings in patients with GCA Alberto Cavazza

9.30 **Workshop:** Assessment of histological sections of normal arteries and sections from patients with GCA Alberto Cavazza

10.30 Coffee break

PET in LVV

11.00 PET technology for the assessment of arteries and the aorta Riemer Slart

11.20 PET for diagnosis and assessment of LVV, differential diagnoses and pitfalls, PET-scoring of LVV Riemer Slart

11.45 **Workshop:** Assessment of PET images under the supervision of the tutor Riemer Slart

13.00 Concluding remarks and course end Christian Dejaco
